Make a Difference!

The San Diego Convention Center believes in making a difference. That means providing outstanding service to our clients and helping make our community a better place. We are excited to offer a program that does both by giving Convention Center clients and exhibitors the opportunity to donate usable materials left over from events held in our building. These materials, which would otherwise take up space in a landfill, will go to local non-profit organizations. Therefore, your donation improves the quality of life for many in our community and is friendly to the earth.

Participation is easy. Convention Center clients who are holding events in our building simply need to contact the convention services department and advise them that you would like to make a donation. You can designate a local non-profit organization or our staff can help you find one. We serve as the liaison between your convention group and the local non-profit organization, arranging for pick-up of donated items and forward subsequent correspondence from the donor directly to you. All donations are tax deductible.

Items that have been donated in the past:

- medical supplies & equipment
- automotive parts
- pet toys & supplies
- chairs & carpet
- convention bags
- binders & books
- notebooks
- pens & pencils
