San Diego Convention Center Wins Third Industry Honor this Year

Top honors go to the Convention Center for the **BEST STAFF IN THE COUNTRY**

The San Diego Convention Center has been recognized by *Tradeshow Week* magazine for having the "Best Staff" out of 375 facilities nationwide. This is the third major industry honor the Convention Center has captured this year, giving us a perfect "Triple Crown" of industry honors.

Tradeshow Week noted our staff's friendliness and "famed white-gloved attendants, who welcome every visitor with a smile and open door . . . the front-line symbol of the center's amicability."

The Convention Center won the "**Triple Crown**" of Industry Honors:

- "**Best Staff**" Award
- "**Planner's Choice**" Award
- "**Supplier (Convention Center) of the Year**" Award

Why is having the "best staff" important? Experienced, competent and well-motivated employees - and the service they provide - are the very characteristics that distinguish one facility from another. The degree of success the San Diego Convention Center enjoys is due in large part to its partnership with nine labor unions whose members provide exceptional customer service and quality workmanship for our facility's top-drawer clients.
