SAN DIEGO CONVENTION CENTER

SUSTAINABILITY & COMMUNITY

The San Diego Convention Center has been a proud industry leader in sustainability for decades. Our practices are recognized for going above and beyond when it comes to environmental responsibility at our venue. In 2018, we achieved Level Three certification to the APEX/ASTM Environmentally Sustainable Event Standards.

We also support our community through donation drives and volunteer activities

in partnership with local nonprofits serving the military, children, and unsheltered populations.

ENVIRONMENTALLY CONSCIOUS

We believe in the importance of recycling and reducing waste. 4-Stream waste receptacles are located throughout the building, allowing attendees to recycle during events. The four streams include paper, recyclables, trash and compost.

Additionally, we are environmentally-responsible with the products we purchase, including paper towels, tissues, toilet paper, cleaning products, cutlery, plates, and more. All of our in-house contractors are required to adhere to the same purchasing practices.

ENERGY EFFICIENT

Our entire facility uses LED light fixtures. Using LED lights saves on electricity and we estimate that the bulbs paid for themselves in less than two years.

COMPOSTING

We compost all non-edible food. Our kitchens do not have garbage disposals so no food scraps are wasted.

DONATIONS

When food is prepared but not served, we donate it to the San Diego Rescue Mission. One year's worth of food donations plates over 100,000 meals, on average.

Another big part of our donation program is providing convention items that can be used by local organizations. One example is partnering with Habitat for Humanity to provide materials they can use to build houses. With effective coordination, our team can ensure that meeting planners and exhibitors are able to donate excess items and materials.
